- Unique double truss arches, made of steel gauge 14, with straight bracings for increased load capacity
- Offered in pre-galvanized steel with bronze welding or Hot Dip galvanized steel, for corrosive applications like salt storage
- Foundation options: precast concrete blocks, concrete footing, concrete or wood pony wall, concrete piers, etc
- Designed to meet requirements of the building code for your specific region
- Covered with polyethylene fabric, 10 oz/sq.yd, it is backed by the best warranty on the market: 100% coverage on the first 5 years, and then prorated up to 10 or 15 years, depending on the type of cover. Fabric covers with clear inside scrim let daylight through, foregoing the need for electrical lighting
- Flame retardant fabric and industrial PVC fabric 18 oz/sq.yd available
- Can be relocated or expanded to adapt to your business' needs

* Compared with building or leasing costs for a conventional storage space of similar size
